

Project Design Phase-I Proposed Solution Template

Date	24 September 2022
Team ID	PNT2022TMID07960
Project Name	Project - Smart Fashion Recommender Application With Chatbot
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Instead of navigating to several screens for booking products online the user can directly talk to Chat-bot regarding the products.
2.	Idea / Solution description	The user needs to create an account. The user mandatorily has to select a product and has to answer the following questions. The results will be displayed once validated.
3.	Novelty / Uniqueness	If the user finds the right product, then with the help of the chatbot, the user can order the product. The user can also raise queries using the chatbot.
4.	Social Impact / Customer Satisfaction	Our system can recommend products that are suitable and can also save a lot of time.
5.	Business Model (Revenue Model)	Conversion of lead to customer through better experience and feasibility
6.	Scalability of the Solution	We can sell this application to e-commerce websites or integrate it into individual business sites.
